

Look After Our Landscapes by Marin Nuttall

Nature, nature is the best
So much better than the rest.
It makes me chuckle, it makes me smile
It's even home to the crocodile.

The grass and plants are healthy and green
It really is very clean.
But when us humans come along
The litter gets where it doesn't belong.

Along the beach is litter-free
Because people are thinking about the sea.
Hurry up! We also need to clean the moor
To make it look more like the shore.

Now it's looking spick and span
Because we had the greatest plan.
Now let's enjoy it all together,
And care for it whatever the weather.
