

## NEWS RELEASE

25 January 2019

Written by: JO BUNGAY

### ENVIRONMENTAL RANGE LAUNCHED AT THE GIFT SHOP

This year we are trying to be more environmentally conscious. If you pop in for a cup of freshly ground coffee, you will find our disposable coffee cups and lids are biodegradable. Better still, if you bring along your own cup you will receive a 10% discount. We are also selling a range of reusable bamboo coffee cups, just the thing to kickstart a new year's resolution of reducing waste.

Also new in, is our range of super soft throws and gorgeous bags from Weaver Green, a Devon based company. They look and feel just like wool but are actually made from recycled plastic bottles. Each large tote bag is made from around 150 recycled bottles, making them the ultimate guilt-free accessory. Why not pop in and have a look for yourself.
